

# ALLERGENS. ■

We know it isn't the most exciting part of planning your wedding meal, but checking your guests can eat with confidence, will not only help them enjoy your wedding, it will give you peace of mind as well.

# Being safe never tasted so good

**We've always taken food safety very seriously, understanding the rules by taking the right advice from the right people and putting it all into action every time we set foot in our kitchens.**

Our chefs and servers are not just talented and professional people, they also understand the importance of the task in providing your nearest and dearest with food that tastes great and is safely prepared.

You may well know which of your guests has a food allergy already, but even so we recommend that you ask this question during the invite process.

Once you have the information to hand, and you have chosen the menu you wish us to serve, our easy-to-use guide will allow you to quickly get to grips with any food or drink item that may present a problem for any of your guests.

All of the dishes and drinks in our brochure, as well as all of the drinks we serve from our bars are listed in this guide, with a handy content page to help direct you to the right place.

Let us know if you identify a food or drink you would like, but which contains an allergen that some of your guests cannot have, and we'll aim to amend it to suit or provide an alternative where we can.

If your menu or drinks have changes to those listed in the brochure or we have arranged entirely new dishes or cocktails, be sure to ask our events team so we can provide you with the correct allergen information.
